Discussion/Action Items

B. Update on Fribee Golf

- Ms. Hauser provided updates to the Committee the status of the Frisbee Golf. Ms. Hauser would like to get "Coming Soon" banners and signs ordered. Also looking to place an order to get the frisbee golf equipment into the store.

C. Update on the progress of the Snack Bar at the Power Play Center

- Mr. Hernandez gave an update on the snack bar. He is meeting with a contractor next week to discuss the project as it is out of the scope of work for our maintenance men. The committee agreed to stick with prepackaged foods. Ms. Hauser has a contact that will conduct a walkthrough so we can get direction on the types of items that can be sold. Our established vendor, Coremark, has most of the items we might need.

D. Update on Participation numbers for the Recreation Programs

- The committee noticed that the numbers are down for the A2R classes. The drop in class size is due to him having restructured his classes. The numbers for the swim classes have been way up and the pool had reached capacity several times. The pool rentals are up as well. The activities at the Percy Bakker Center are doing well, the billiards room is busy and the Meals on Wheels is doing well. Our social media manager should be going to the classes and getting content. It would help to spread the word about what the District has to offer. The committee also talked about having the right staff at every location, as each location has it's own personality. We also need to have representation

at every event. Our pop up tent with flyers, information on classes and the ability to sign people up on the spot. Also working with the School District can help raise the participation numbers, by sending out flyers with registration dates, and other program information. Would like to have the TVs at the facilities displaying information on our classes, programs and upcoming events.

- E. Updates on the Participation Numbers for Streaming**
 - Discussed with Item D

- F. Upcoming and New Programs**

- G. Recommendations for improvements on existing classes**
